* MARVILLA TOUCH

IT / Touch è realizzato con materie prime particolarmente pregiate e sottoposto a successive lavorazioni che consentono di realizzare lastre con effetti di bassorilievo e dalla finitura extra morbida. Touch è il risultato di un innovativo processo produttivo che esalta la naturalezza del prodotto e per questo si sconsiglia l'utilizzo di materiali abrasivi o prodotti a forte attacco acido e l'uso in ambienti ad alto traffico.

EN / Touch is made from particularly precious raw materials, processed to create bas-relief-effect slabs with an extra-smooth finish. Touch is the result of an innovative production process that enhances the natural features of the product: for this reason, we advise against the use of abrasive or highly aggressive acid products or laying in spaces with a high footfall.

FR / Touch est réalisée à partir de matières premières de qualité supérieure et soumise à des traitements qui permettent de créer des dalles aux surfaces ultra douces arborant des effets de bas-reliefs. Touch est issue d'un tout nouveau processus de production qui valorise le caractère naturel du produit, c'est pourquoi il est déconseillé de l'appliquer dans des espaces très fréquentés et d'utiliser des produits abrasifs ou des détergents fortement acides pour son entretien.

DE / Touch wird aus besonders edlen Rohstoffen gefertigt, aus denen nach weiterer Bearbeitung Großformatplatten mit Flachrelief und extraweicher Oberfläche entstehen. Touch ist das Ergebnis eines innovativen Herstellungsverfahrens, das die Natürlichkeit des Produkts zur Geltung bringt. Von der Verwendung von Scheuermitteln oder säurehaltigen Produkten und vom Einsatz in stark begangenen Bereichen wird daher abgeraten.
